

iHeRQles Blood Cleanse — Quantum Frequency for Regeneration

A New Paradigm in Cellular Renewal

iHeRQles is not a supplement in the conventional sense. It is a **quantum-informed delivery system** that extracts and concentrates the *precise signaling molecules* from 44 botanicals — the compounds that shape biology at the deepest level. These are not crude tinctures or whole-plant powders; they are **refined molecular messengers** encoded with frequency information, designed to restore coherence where aging has created noise.

The aging process is driven as much by information breakdown as by cellular wear-and-tear. Signals between redox networks, stem-cell niches, and organ systems become distorted. Instead of clean communication, the body experiences static: sluggish detoxification, faltering regeneration, and muted resilience.

iHeRQles addresses this at its source. Delivered sublingually, its bioactive molecules bypass digestion and enter the bloodstream directly. Each molecule carries not just chemistry, but **high-frequency instructions** that entrain the autonomic nervous system, structure interfacial water, and synchronize cellular redox timing. The result is not stimulation or suppression, but **a return to biological harmony** — the state in which detoxification, repair, and regeneration are naturally optimized.

By saturating the blood with these 44 molecular signals over a 4-month protocol, iHeRQles acts like a **reset switch for human biology**. It clears accumulated toxins, reactivates stem cells, and re-establishes the coherence of the biofield. This is why users often describe not just “feeling better,” but *feeling like themselves again* — energized, aligned, and visibly renewed.

Core Mechanisms of Action

- **Redox & Glutathione Balance** → Polyphenols and organosulfurs (from turmeric, garlic, rosemary) optimize redox signaling and glutathione cycling.
 - **Stem Cell Reactivation** → Astragalosides (astragalus), eleutherosides (Siberian ginseng), and Fo-Ti stilbenes wake dormant progenitor cells and restore regenerative capacity.
 - **Blood & Organ Detoxification** → Burdock, artichoke, parsley, and juniper actives support hepatic, renal, and lymphatic clearance pathways, reducing systemic toxin load.
 - **Microvascular Perfusion** → Hawthorn, ginger, garlic, and white willow improve endothelial function and blood flow, ensuring efficient delivery of oxygen and nutrients.
 - **Biofield Coherence** → Volatile terpenes (from sage, thyme, fennel, rosemary, lemon balm) entrain the autonomic nervous system and stabilize subtle energy fields, improving HRV and resilience.
-

The Protocol — How to Use iHeRQles

Dosage & Usage

- **Blood Cleanse (Loading Phase):** 4 sprays under the tongue, 3× per day for 4 months.
 - **Maintenance Phase:** 4 sprays under the tongue once per day, 15-minutes prior to your largest meal.
 - Hold under your tongue for 30–60 seconds before swallowing for maximum absorption.
 - Hydrate well and pair with minerals for optimal frequency conduction.
-

Timeline of Results

- **Week 1–2:** Lighter digestion, improved sleep, under-eye dark circles begin fading. Subtle calm and coherence in the nervous system.
 - **Week 3–4:** Noticeable shifts in cardiovascular tone. Heart rate and blood pressure normalize. Energy stabilizes throughout the day.
 - **Month 2–3:** Visible renewal — skin clarity, elasticity, hair vitality. Faster recovery after exertion. Mood and focus are more consistent.
 - **Month 4:** Deep reset — stem cells and regenerative pathways begin to dominate, laying the foundation for long-term reverse aging.
 - **Maintenance:** 4 sprays once daily sustains the coherence — holding detox, stem cell vitality, and systemic resilience.
-

Quantum Benefits in Practice

Physical

- Faster tissue repair & recovery
- Improved circulation and oxygen delivery
- Reduced pain & inflammatory load
- Younger-looking skin, hair, and connective tissue

Mental & Emotional

- Calmer focus, reduced nervous system “static”
- Mood stability and stress resilience
- Deeper, restorative sleep

Longevity & Regeneration

- Stem cell reactivation & collagen renewal
 - Detoxified blood and organ systems
 - Systemic rejuvenation from the inside out
-
